### *Artist*

As a young emerging multimedia artist from Cameroon, I completed my BAFA in South Africa in 2023. My practice encompasses; paintings, photography, video art, film, sculpture, and sculptural installations. Predominantly, I explore the different forms of knowledge that define who we are and how we interact with the world. These reflections extend from my personal life experience to communal experiences and cultural tensions that exist within human spaces. As a result, my work engages with the complexities of being human, sociocultural hierarchies that define individuals and spaces, borders, and human limitations.

---

### *Skills*
